

Riviera® DustGuard® 1/2" Blind

Top quality 1/2" horizontal aluminum window covering for commercial applications.

KEY FEATURES:

- DustGuard
- Headrail: 3/4" high x 13/16" wide
- Nominal .0080" slat thickness
- 26 slats per foot
- Guardian Tilter™ disengaging clutch mechanism
- Lifetime warranty

PRODUCT OVERVIEW

The Riviera DustGuard 1/2" Blind represents Levolor's top quality horizontal blind backed by a lifetime warranty. Committed to both durability and aesthetics, the Riviera DustGuard 1/2" blind combines the highest quality components with a headrail design that complements the narrow slats to achieve a more refined overall visual effect.

The DustGuard feature is a permanent point process that disrupts the natural static attraction of dust particles to the slat. By removing the primary reason blinds attract dust a 50-70 percent reduction in accumulation can be achieved. Less dust means less maintenance and a cleaner, more professional appearance.

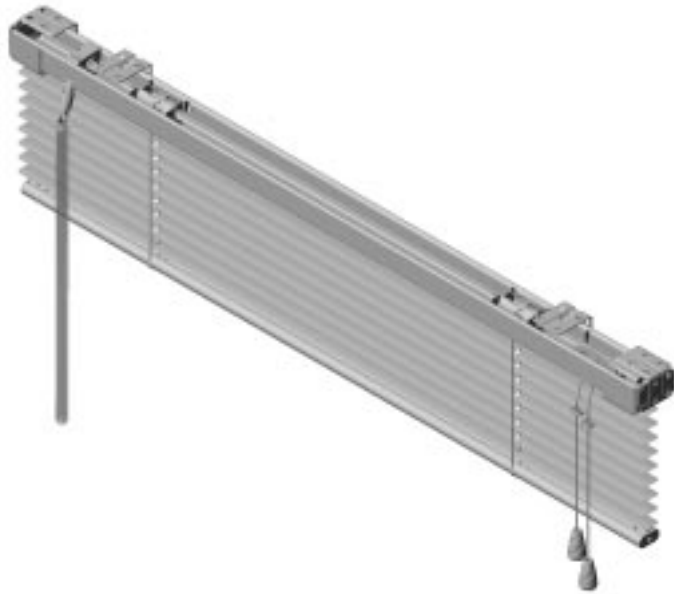

The slim yet durable headrail is made of thick roll-formed corrosion-resistant Tomized® steel. The strength of the narrow headrail profile provides smooth operation under heavy commercial use. The Tomized steel hardware is securely installed, ensuring accurate alignment of moving parts and long, maintenance-free operation.

The nominal .0080" thick slats are made of high grade magnesium aluminum alloy which provides superior strength and resiliency, guaranteeing a quality look for the life of the blind. As the industry leader, the Riviera DustGuard 1/2" Blind's 26 slats per foot ensure tight closure and superior light control. The exclusive Guardian Tilter disengaging clutch mechanism eliminates over rotation of the tilt wand and protects the tilt mechanism against breakage. This key feature eliminates the problem of the slats being locked in a permanent position.

The Riviera DustGuard 1/2" blind is offered in a wide array of popular colors with coordinated components.

Riviera® DustGuard® 1/2" Blind

PRODUCT SPECIFICATIONS

For more detailed specifications please reference Riviera DustGuard 1/2" Blind product Guide Specifications.

Part II – Products

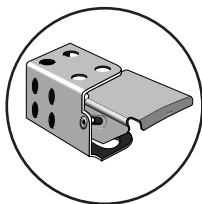

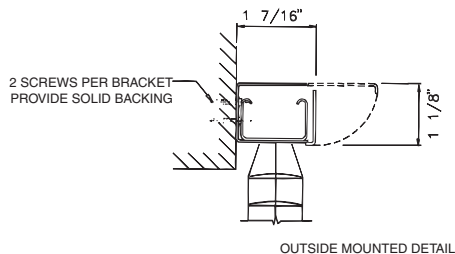

A. Riviera DustGuard 1/2" (15 mm) Blind manufactured by Levolor

B. Lifetime Warranty

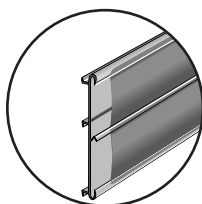

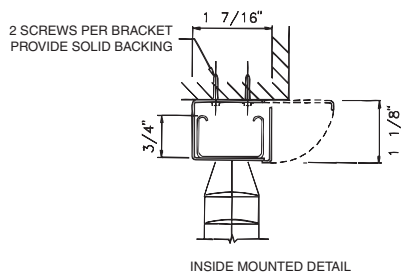

C. Materials:

- Headrail** shall be of .025" thick Tomized steel, "U" shaped, 3/4" high x 1 3/16" wide. All hardware shall be enclosed in the metal headrail.
- Guardian Tilter** mechanism shall be of a not less than .031" thick Tomized steel housing with a self-lubricating nylon, automatically disengaging worm and gear mechanism to eliminate overdrive.
- Tilt Wand** shall be transparent with a hexagonal cross section 5/16" in across flats
- Cord Lock** shall be of .025" thick Tomized steel and shall be crashproof.
- Drum and Cradle** shall be provided for each ladder.
 - a. Drums shall be of .031" thick Tomized steel.
 - b. Cradles shall be of .025" thick Tomized steel.
- Installation Brackets** shall be of at least .042" thick Tomized steel with a rivet-hinged safety locking front cover to permit removal of headrail without lateral movement.
- Ladders** (slat supports): Distance between slats shall not exceed 11.73 mm (nominally 26 slats per vertical foot).
- Slats** shall be of 5000 series magnesium aluminum alloy only, not to include reprocessed metals. Slats shall be nominally 1/2" wide and .0075"±.0003" thick (prior to coating); after coating, the thickness of the slats shall be nominally .0080".

Coating includes DustGuard, a patented paint process which disrupts the natural static attraction of airborne dust particles, reducing dust build-up on the slat from 50-70 percent.
- Bottomrail** shall be of .031" thick Tomized steel.
- Options** shall include:
 - a. Special Installation Brackets
 - b. Hold Down Brackets

Open End Bracket

Vogue® Valance Option

Hold-down Bracket
